What is BEACON?

BEACON is an acronym for – **B**uilding **E**nterprise **A**ccess for North Carolina's **C**ore **O**peration **N**eeds

This collaborative effort is designed to transform the way the state conducts business by **modernizing and standardizing key business processes**. The first project in the BEACON program is in human resources and payroll. Once implemented, the BEACON HR/Payroll will:

- **Increase operational efficiency**
- **Improve access to information**

Why is BEACON Needed Now?

The State's current core business operations are conducted on an antiquated legacy system that:

- Is more than 25 years old
- Is difficult to maintain and support
- Relies on outdated technology
- Is at risk of failure due to old age and loss of vendor support
- Is supported by a workforce that is rapidly reaching retirement age

Employee Self Service

What is it?

ESS is the means through which employees will be able to access and maintain personal information, employee information, and management reporting in the BEACON HR/Payroll system.

How do I access it?

An employee can access the ESS portal from his or her home or work computer or from any other computer terminal with Internet access.

When will it be available?

Following the project's scheduled 2008 go-live dates.
